Run time*
DUH507/DUH607

77/60 min

Battery: BL1830B

Strokes per minute

2,700 min⁻¹

Net weight

3.0 kg

Battery: BL1860B
Model: DUH507

*Continuous run time on a single full battery charge

Lightweight design

Chip receiver (option)

can make it easier for user to collect leaf and twig debris, thanks to:

- Lower height of the connecting levers
- Reduced step height of the edge of the chip catching plate

Highly durable crank mechanism

Increased crank wall thickness can:

- reduce the chance of falling off of the blade from the crank.
- increase the contact area between the crank and blade, reducing wear of the crank.

Easy-to-press front switch lever

Front switch lever has been redesigned to be easily pressed even when it is gripped at the side.
