IMPORTANT SAFETY RULES

Read, Understand and Follow All Instructions Carefully Before Installing and Using this Product.

WARNING

- Supervise children and those with disabilities at all times.
- Always assist children when they use the ladder to avoid falls and/or serious injury.
- Never dive or jump from this ladder.
- Locate the ladder on a level, solid base.
- One person on this ladder at a time.
- Maximum load: 300 lbs (136 kg). Complies with NF P90-317 strength requirements.
- Face the ladder at all times for entry/exit of pool.
- Remove and secure ladder when pool is not occupied.
- Do not swim under, through or behind ladder.
- Check all nuts and bolts regularly to ensure ladder stays sturdy.
- If swimming at night use artificial lighting to illuminate all safety signs, ladders, pool floor and walkways.
- Assembly and disassembly by adults only.
- This ladder is designed and manufactured for a specific pool wall height and/or deck of the pool. Do not use with other pools.
- The non-respect of the maintenance instruction may result in huge risk for health, particularly for children.
- Only use this ladder for the purposes described in this manual.

FAILURE TO FOLLOW THESE WARNINGS MAY RESULT IN BROKEN BONES, ENTRAPMENT, PARALYSIS, DROWNING OR OTHER SERIOUS INJURY.

These product warnings, instructions and safety rules provided with the product represent some common risks of water recreation devices and do not cover all instances of risk and danger. Please use common sense and good judgment when enjoying any water activity.

PARTS REFERENCE

Before assembling your product, please take a few minutes to check the contents and become familiar with all the parts.

52" (132 cm) model

NOTE: Drawings for illustration purpose only. Actual product may vary. Not to scale.

REF. NO.	DESCRIPTION	QUANTITY	SPARE PART NO.	
			#58975	#10904
1	U-SHAPED TOP RAIL	2	10815	10911
2	TOP PLATFORM	1	11145	11146
3	SHORT FASTENER FOR U-SHAPED TOP RAIL (WITH 1 EXTRA)	5	10810	10810
4	LONG FASTENER FOR TOP PLATFORM (WITH 1 EXTRA)	5	10227	10227
5	STEP MOUNTING PIN (WITH 2 EXTRA)	34	10349	10913
6	STEP	8	10348	10914
7	UPPER SIDE LEG (MARKED "A")	2	11557A	11559A
8	UPPER SIDE LEG (MARKED "B")	2	11557B	11559B
9	LOWER J-SHAPED SIDE LEG (MARKED "A")	2	11558A	11560A
10	LOWER J-SHAPED SIDE LEG (MARKED "B")	2	11558B	11560B

This ladder is designed and manufactured for Intex pool wall height:

Item #	Pool Wall Height
58975 (white & blue)	52" (132 cm)
10904 (silver & white)	52" (132 cm)

LADDER SETUP

TOOLS REQUIRED: One (1) Phillips screwdriver

One (1) pair of pliers or a small adjustable wrench

IMPORTANT: Do not fully tighten fasteners until last assembly operation.

⚠ WARNING

ASSEMBLE THE LEGS BEFORE INSTALLING THE LADDER STEPS. FAILURE TO ASSEMBLE THE LEGS BEFORE INSTALLING THE STEPS MAY ALLOW THE LEGS TO SEPARATE FROM THE LADDER DURING USE, POSSIBLY RESULTING IN SERIOUS INJURY OR DEATH.

1. IDENTIFY PARTS:

It is very important to lay out the parts correctly and identify which parts connect together before starting the assembly. Although some parts look alike, they are not always interchangeable. Refer to the parts list.

⚠ WARNING

INCORRECTLY CONNECTED PARTS MAY RESULT IN AN UNSTABLE LADDER OR LADDER FAILURE WHICH CAN CAUSE FALLING AND PERSONAL INJURY OR DEATH.

2. LEG ASSEMBLY (refer to figures 1.1 through 1.2):

IMPORTANT: Make sure the legs are securely connected and locked. Check the spring pins have snapped out before proceeding to the next step. Ensure the J-shaped legs are pointing outwards before installing the steps.

LADDER SETUP (continued)

3. STEP INSTALLATION (refer to figures 2.1 through 2.2):

IMPORTANT: Make sure all pins are securely locked.

4. TOP PLATFORM INSTALLATION – ONE SIDE

AT A TIME (refer to figure 3):

Identify hole "A" and hole "B" on the top platforms (2), marked accordingly at each corner. Slide the top platforms over the legs, making sure hole "A" of one corner of platform slides over leg "A" and hole "B" of the other corner of platform over leg "B". The small holes on the side of platform should align with the lower holes on the legs. Fasten each platform to the legs using the longer fasteners/screws (4). Do not yet attach the other side of the ladder to the top braces – this assembly step will follow later.

LADDER SETUP (continued)

5. U-SHAPED TOP RAIL INSTALLATION (refer to figure 4):

Install the U-shaped top rails (1) onto the legs above the top platform (2) and fasten them with the shorter fasteners/screws (3) – see figure 4.

6. INSTALLATION OF THE REMAINING LADDER SIDE (refer to figure 5):

With all the top rail and top platform holes in alignment, slide the remaining ladder side from the underside into its proper position. Make sure the "A" leg slides into hole "A" of the top platform and the "B" leg slides into hole "B" of the corresponding top platform. Fasten all parts using the appropriate fasteners/screws (4) and (3), as described earlier.

7. BEFORE USE OF LADDER:

With all parts now in place, verify that all fasteners/screws are fully tightened and apply downward pressure to each step to be sure they are fully anchored in place. If your ladder came with a ladder barrier, proceed to instructions for ladder barrier installation, otherwise proceed to placing the ladder over the side wall of your pool, with one side of the ladder located inside the pool and the other side outside of the pool - see figure 6.

Estimated assembly time 45 minutes. (Note the assembly time is only approximate and individual assembly experience may vary.)

WARNING

- Locate ladder on a level, solid base and make sure the ladder is stable and safe to climb.
- Remove and secure ladder away from the pool when the pool is not in use to prevent unauthorized, unintentional or unsupervised pool entry.
- Check all nuts and bolts regularly and before each use to ensure the ladder is sturdy. See maintenance instructions.

8. MAINTENANCE:

Regularly check all nuts, bolts, step mounting fixtures and step mounting pins to ensure all parts are secured properly and the ladder is sturdy. Bring the ladder indoors and store in a safe and dry area, preferably between 32 degrees Fahrenheit (0 degrees Celsius) and 104 degrees Fahrenheit (40 degrees Celsius).

GENERAL AQUATIC SAFETY

Water recreation is both fun and therapeutic. However, it involves inherent risks of injury and death. To reduce your risk of injury, read and follow all product, package and package insert warnings and instructions. Remember, however, that product warnings, instructions and safety guidelines cover some common risks of water recreation, but do not cover all risks and dangers.

For additional safeguards, also familiarize yourself with the following general guidelines as well as guidelines provided by nationally recognized Safety Organizations:

- Demand constant supervision. A competent adult should be appointed as a "lifeguard" or water watcher, especially when children are in and around the pool.
- Learn to swim.
- Take the time to learn CPR and first aid.
- Instruct anyone who is supervising pool users about potential pool hazards and about the use of protective devices such as locked doors, barriers, etc.
- Instruct all pool users, including children what to do in case of an emergency.
- Always use common sense and good judgement when enjoying any water activity.
- Supervise, supervise, supervise.
